ATTENTION

We prefer to serve our food right from the kitchen to your table, but we understand that you like to take it home sometimes. At home, please take the food out of the boxes and serve it on a plate or in a bowl, this will improve the flavours. Thai food is generally eaten with a fork and spoon. We try our best to have your order ready as quick as possible, but when it's busy, it can take some time.

At Yum Saap, we serve dishes from Thailand and around, which are meant to be combined and shared. Try around 3 dishes per person. Spicy dishes are marked with a 🌶️, vegetarian dishes with a 🌱. Vegetarian dishes may contain some fish sauce! We use fresh ingredients, biological chicken and certified fish. Yum Saap means 'healthy salad' in Thai, but we're not a traditional Thai restaurant. Enjoy!

If you have allergies, ask us for the allergy menu.

We cook to make you happy. If there's a problem or something isn't right, let us know so we can fix it. Better early and often, than later or never!
